

ESCUTCHEON 01 FOR HANDLE (SMALL)

L'entrée de serrure 01 est une fine plaque d'acier martelé de forme circulaire, servant à habiller le trou de la serrure. Celle-ci a été observée sur la porte d'entrée d'une ancienne maison de village dans le Quercy. Les entrées de serrure étaient richement décorées jusqu'à la fin du XVIIIème siècle, puis leur dessin s'est peu à peu simplifié. À noter qu'une plaque similaire en alliage cuivreux a été inventoriée sur la nécropole des Dunes, un site archéologique gallo-romain. Cette rosace existe en deux tailles, petit et moyen modèle, à bec de canne (utilisé pour les poignées ou les tiges de décondamnation) ou à clé.

DIMENSIONS

ø 40 mm / ép. 1,5mm

MANUFACTURING LOCATION

Normandy region, France.

MANUFACTURING PROCESS

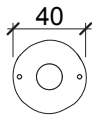

Each Inventaire product is the result of French, manual, and artisanal craftsmanship.

MATERIAL AND TECHNIQUE

Wrought iron hand-forged and hammered. This is a "living" material whose appearance may change over time when exposed to hands, air, water, or other elements. These natural changes contribute to the unique character and aesthetic of each piece.

UTILISATION

Plate to hide the lock, for handle.

FINISHING

While hot, the craftsman applies a wax used for the protection and finishing of metal surfaces. It is possible that the products feel slightly sticky upon receipt. This effect will quickly disappear when exposed to ambient air. If you wish to maintain the protection of your Inventaire wrought iron door handles over time, you can apply a natural wax yourself. If you want to enhance the product's shine, you can polish it using a soft brush or a suitable cloth.

INSTALLATION

Nails are provided for installing your plates.

Upon request, we can supply keyhole escutcheons with handle and lock spacing adapted to regional specifications: 72 mm, 85 mm, or 90 mm.

IMPORTANT NOTE

Please check the compatibility of the plates with your setup before placing an order.

The dimensions of the objects may vary slightly from one piece to another within a tolerance defined by Inventaire. These variations are the result of handcrafting, which introduces unique nuances at each stage of production. They do not affect the functionality of the products and contribute to the unique character of each piece.
